

# EPIC TIC

EPIC TIC for Long Printing

PLC control & finger touch  
HMI with multilingual support.

Improved & newly  
designed Transverse  
ink cup.

  
Specially designed  
Long Silicone pad

  
Specially designed  
Cliché plates

Available models- EPIC TIC ( 60/90/130)

[www.epicpadprinting.com](http://www.epicpadprinting.com)

EPIC TIC or Transverse ink cup machines are designed to print long designs in one printing pass. These are servo pneumatic machines with very high pressure are used to print parts like washing machine panels in one go.

## Key Features of the EPIC TIC Series

### High-Speed Electro-Pneumatic Drive

Achieve optimal printing precision with the advanced electro-pneumatic drive offered by EPIC TIC series machines. Whether you prioritize speed or accuracy, these machines ensure seamless operation, enhancing overall productivity.

### High Printing Force for Impeccable Results

Experience the power of high printing force with EPIC TIC series machines. This robust force not only facilitates crisp, clear prints but also ensures uniformity across each impression, resulting in professional-grade output every time.

### Sturdy Machine Construction for Longevity

Built to withstand the rigors of industrial environments, EPIC TIC series machines boast a sturdy construction that guarantees longevity and reliability. From heavy-duty components to precision engineering, these machines are designed to endure continuous operation without compromising performance.

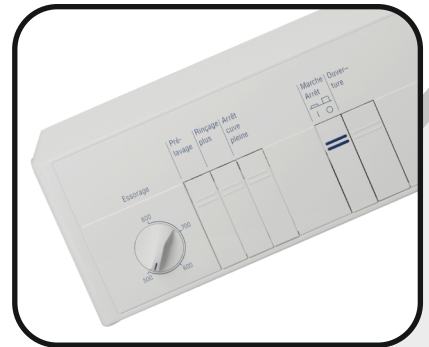

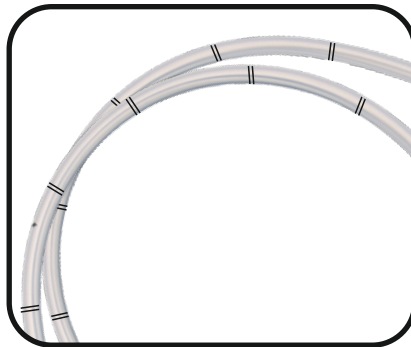

### Options Available

Print Cup diameter (mm):	Print Length (mm):
60/65/90/95/130	250/350/450/550

## Applications and Industries

The TIC Series pad printing machine finds application in a wide range of industries and printing requirements. Its versatility and reliability make it an ideal choice for businesses in need of efficient and accurate printing solutions.
